CAREER OBJECTIVE

Final-year B.E. (Computer Science & Engineering) student at Chandigarh University with hands-on project experience in Python, Java, and web application development. Seeking an entry-level Software Developer role to apply strong programming fundamentals and problem-solving skills to build reliable, real-world software solutions.

PROJECTS

Wash Setu

Academic Project

- Built Wash Setu, a web-based application aimed at improving access to sanitation and hygiene information/services for local communities.
- Designed the front-end using HTML and implemented core application logic in Python.
- Collaborated with peers to plan features, test functionality, and refine the user experience.

Room Finder Application

Academic Project

- Developed Room Finder, an application to help students and tenants search and filter available rental rooms based on location and preferences.
- Implemented core modules in Java, focusing on clean logic structure and usability.
- Practiced end-to-end software development, from requirement gathering to testing.

Digital Electronics Projects

Academic Project

- Designed and built digital electronics circuits/mini-projects applying logic gates and circuit design principles as part of coursework.
- Strengthened understanding of hardware-software interaction, complementing programming skill set.

EDUCATION

Bachelor of Engineering (B.E.) — Computer Science & Engineering

Expected 2029

Chandigarh University

- Currently pursuing coursework in programming, data structures, and software engineering fundamentals.

+2 (Higher Secondary) — Computer Science

GPA: 3.41 (Class 11) | 3.32 (Class 12)

The Time's Secondary School, Sarlahi, Nepal

Secondary Education (Class 10)

GPA: 3.25

Shree Mati Krishna Devi Secondary School, Sarlahi, Nepal

ACHIEVEMENTS

- Best Coder Award — Chandigarh University, recognized for strong programming and problem-solving performance.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, Java

Web Technologies: HTML

SOFT SKILLS

Teamwork, Communication, Time Management, Adaptability
